Title: Realty Ratings
User Acceptance Testing Plan:

UATs			
Acceptance Requirements	Probability High|Med|Low	Importance High|Med|Low	Comments
User should only be able to input numbers for the zip code field when submitting a property	HIGH	MED	We want this to be tested in order to ensure our database does not get crowded with invalid inputs
Password should be 8 characters or more	HIGH	HIGH	We want to ensure our user's security
Usernames should be unique when they are created	MED	HIGH	We don't want repeat usernames or else our individual users won't be recognizable

Individual Contributions:

Nancy: Added functions to validate.js, as well as tested those functions. Styling the vue to make it look more like our prototype. Add a handler for the user to be able to change their username. Testing for register api.
https://github.com/cub-csci-3308-spring-2022/csci-3308-spring22-011-05/commit/bec0c902d96d9063c0e5476a43da82fde3204907

Tucker: Redesign of property.js, adding support for #bedrooms, #bathrooms, & property manager to backend, to property.vue, and to submit property.vue.
https://github.com/cub-csci-3308-spring-2022/csci-3308-spring22-011-05/commit/fdb1b8ce163bc00d18d467bf49e62b22f0c8970d

Jordan: Added a handler to change users profile picture so that even after they log out and log back in it is saved in the database. Styling the vue to make it look like our prototype. Creating a link on the profile page to the properties the user has reviewed.
https://github.com/cub-csci-3308-spring-2022/csci-3308-spring22-011-05/commit/be475e8edb794eca90de52716ce7a096fb92c540

Rocky: Created handlers and requesters for a delete user button.
https://github.com/cub-csci-3308-spring-2022/csci-3308-spring22-011-05/commit/8b3ef6263ff9fb471363c8a5ad48a0ac029a374e

Quinn: Finalized frontend styles for our presentation.
